OBJECTIVE: FRONT-END DEVELOPER

EDUCATION

Universidade Cesumar – Analysis and Development of Systems, expected graduation in the 1st semester of 2025

PROFESSIONAL EXPERIENCE

Front-end Intern at **UpBase Consultoria** (nov/22 – may/23)

- Mobile development with React Native, TypeScript and Styled Components.
- Web development with Next JS, Chakra UI and TypeScript.
- Deployment of projects using Microsoft Azure and SSL certificates.
- Refactoring of existing frontend projects, applying good code practices.

Main results: The agility in delivering services to clients, combined with the organization and optimization of the code for easy maintenance, allowed the company to gain the trust of more projects.

EXPERIENCES AND COURSES

MyContacts – [Repository](#)

MyContacts is a project for contact management where you can create, read, update and delete your contacts, as well as organize them by categories. It was used on the front-end ReactJS, Styled Components and TypeScript, while the back-end was done with Node JS, Express and PostgreSQL.

React.js Ninja Course – Udemy (apr/22 – jul/22)

I learned how to create web applications with React.js, using JSX, Webpack, Class Components, unit tests with Jest, Storybook, Redux and SPA. I deepened my knowledge in ES6+ and its features.

Curso JavaScript Ninja – Udemy (oct/21 – feb/22)

I learned how to program with JavaScript in a functional way, using Arrays, Objects, IIFE, hoisting, Regex, DOM, Events, AJAX and REST API. I also tested the code with Jest.
